(see map on the next page)

1) Take the green line metro (direction Gessate / Cologno Nord) and get off at CASCINA GOBBA (limit of the ATM urban ticket). At platform 1 of CASCINA GOBBA, connection with the automatic metro to the *San Raffaele* hospital (separate ticket, available at the nearby automatic cash machines or at any metro station).

2) Leaving the automatic metro, follow the signs for sector R - central reception (red line on the floor). Once you arrive in front of the entrance of the central reception, go up the stairs on your left to find yourself in the main square of the hospital complex. Leaving the hospital buildings behind you (and having the *Hotel Rafael* in front of you) cross the short passage under the glass structure on your right. Turn right to take the driveway that leads to the hospital exit on *via Olgettina* (passing the ambulance entrance and the surgical center on the left and, subsequently, buildings Q2 and Q3 on the right). Turn right again, reach the roundabout and continue on *strada di Spina*, walking on the right sidewalk (which gradually becomes higher than the street level).

3) After passing the post office, you come in sight of a pedestrian overpass on *strada di Spina*, immediately before which, always on your right, a pedestrian path begins parallel to *via Residenza Ponti*. At the end of the pedestrian path (near the *Residenza Spiga*) there is a circular widening, at the end of which, turning left, is the access to the square surrounded by the buildings of the *Centro Direzionale*. The first building you come across is the *Palazzo Bernini*. *Palazzo Canova* is just beyond.
